## Residential care

Shaftesbury Young People's children's homes provide high quality care and stability for young people aged 11-16 years.

Being taken into care is extremely traumatic for a child. Once in care, a child can move house and school many times which is very disruptive. We work above and beyond the basic care package and go the extra mile to offer the best experience for our young people.

Our staff works within a tailored support system to help children in our care to adapt to their new way of life and to achieve positive outcomes – both when living with us and when moving on.

We believe in the potential of every young person; our expertise and experience helps our young people to realise that potential.
